

**Participating Energy Efficiency Contractor (PEEC) Network
Contractor Agreement Form**

I _____, of _____, understand that as a member of
(Contractor name) (Business Name)

the PEEC Network, my work may be verified by a third party verifier and subsequently evaluated on the basis of technical sufficiency. Verification may include technical review of sizing, air flow, systems matching, refrigerant charge, and other aspects of proper equipment installation. I express my willingness to participate in this verification and understand that repeatedly poor performance may result in my removal from the PEEC Network.

As a member of the PEEC Network I agree to maintain up-to-date general liability and commercial automobile insurance, hold a valid business license, and to contact the Midwest Energy Efficiency Alliance (MEEA) in the event that any changes occur to the status of either my insurance or business license. In the event that my insurance and/or my business license expire, I understand that I will no longer be considered a member of the PEEC Network.

Finally, in order to continually improve the Network's rigor and relevance, beginning October 2011 all new PEEC Network members will be required to employ a minimum of one individual with at least one third-party certification from a list managed by MEEA. Existing PEEC Network members have until May 1, 2012 to send proof of certification to MEEA, or you will be removed from the PEEC Network. Each PEEC Network company will be held to the standards outlined by their chosen third-party certification.

Signature _____ Date _____
