REDUCE BEFORE YOU PRODUCE

SOLAR
+
EFFICIENCY

- Air Sealing
- Duct Sealing
- Insulation

- Upgrade Lighting
- Smart Thermostat

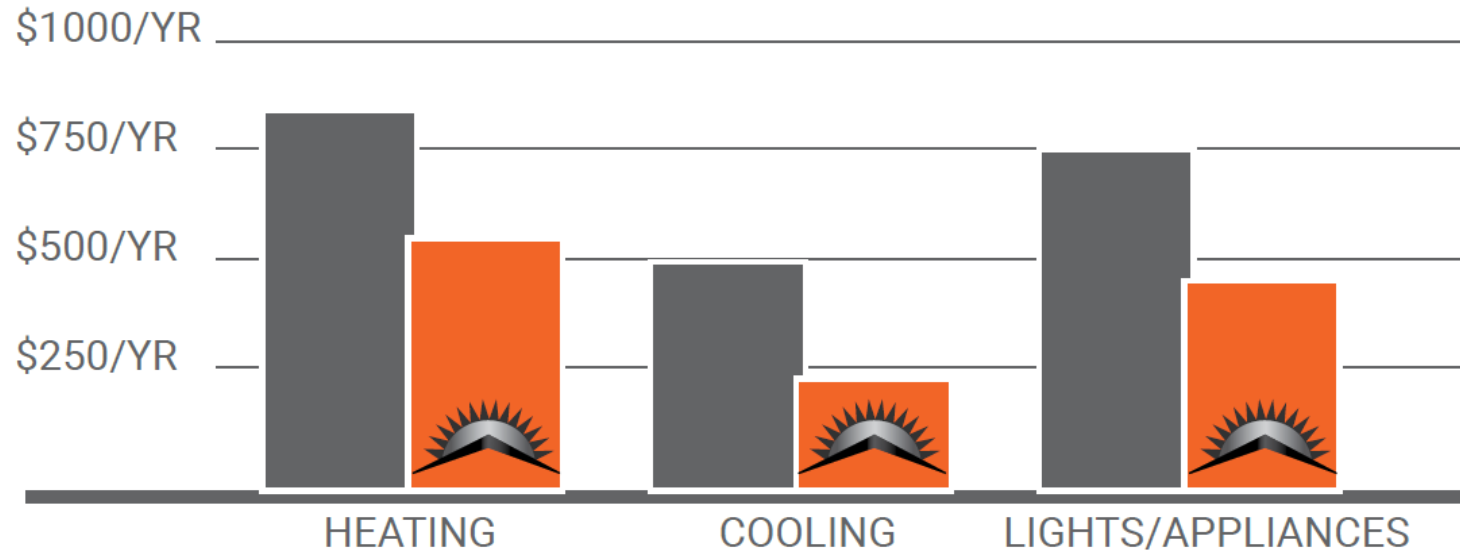

Energy Efficiency

- **1,280 customers** with EE
- Saving an ***average of \$40 per month***
- **Total monthly** savings = **\$51,200**
- **Yearly** savings = **\$614,400**

Combining Solar & Energy Efficiency
BETTER RETURN ON YOUR INVESTMENT

SOLAR+EFFICIENCY SAVINGS COMPARISON

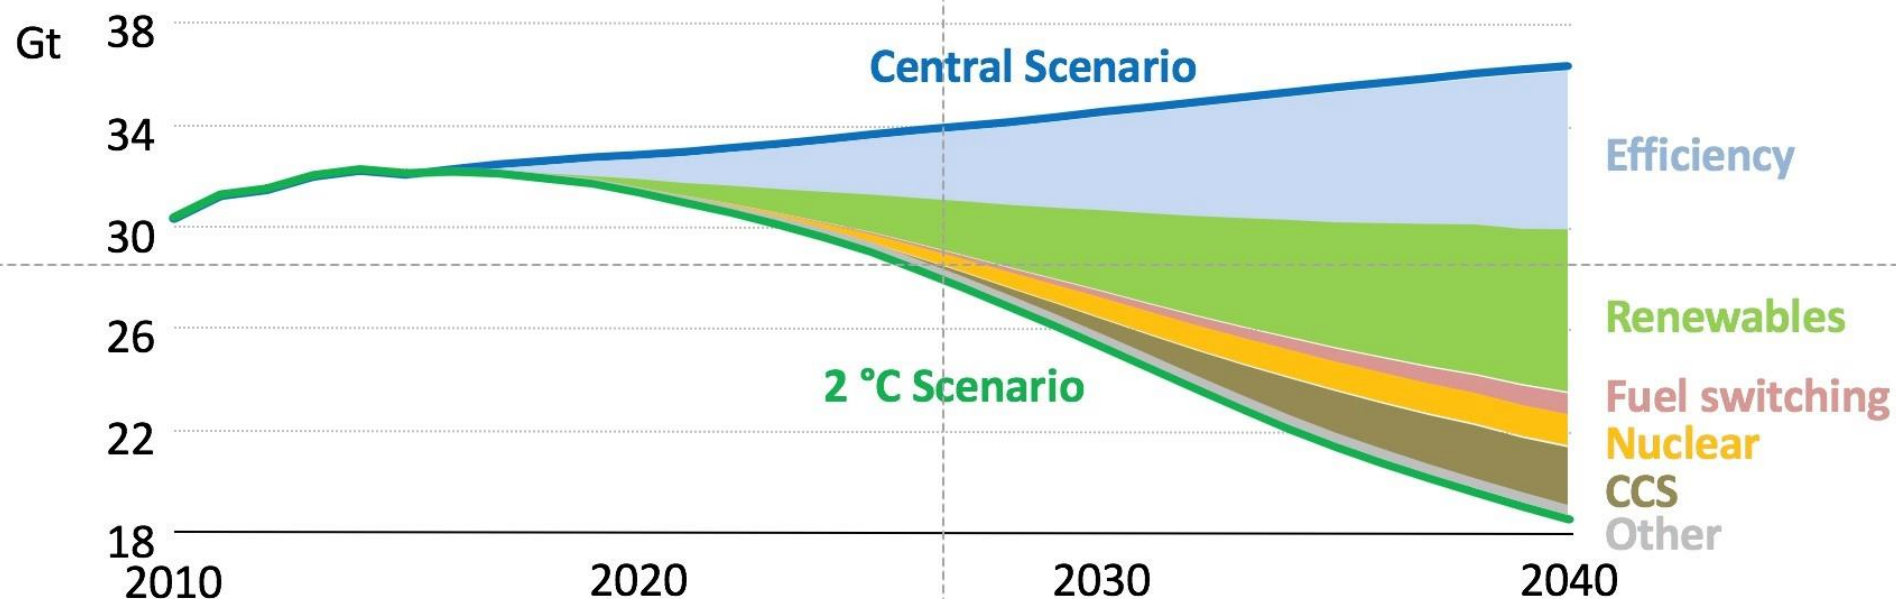

Results may vary.

Efficiency and renewables key to global climate change mitigation

Global CO₂ emissions reductions in the Central & 2 °C Scenario by technology

Supply-side investment needs to be re-directed, not increased; demand-side investment for energy efficiency, electrification & renewables needs to ramp up significantly.
