How do building energy codes benefit Iowa residents?

- Lower energy bills
- Healthier indoor air
- Stronger state economy

Since 2009, Iowa’s residential energy code has saved:

- Consumer Energy Bill Savings: $47,008,318
- Total Energy Savings (MMBTU): 3,580,493
- Total CO2e Savings (Tons): 281,252

That’s enough to:

- Pay for 1,218 students to attend 4 years of college
- Powering 29,699 homes
- Build 362 miles of new bike lanes
- Installing 71 new wind turbines
- Buy 672 Tesla Model S electric cars
- Removing 59,410 cars from the road

In CO2 equivalent, that’s like:

- Installing 71 new wind turbines
- Removing 59,410 cars from the road
- Paying for 1,218 students to attend 4 years of college
- Building 362 miles of new bike lanes
- Buying 672 Tesla Model S electric cars
- Powering 29,699 homes
